How To Use Federal Career Opportunities

FCO is sequenced by the occupation groups used by the federal government. Within each major occupation are subgroups or "series". For instance, the series for an Accountant is 0510. You'll find these positions uder the group heading for the 0500's (Accounting _Budget). The series and grade are expressed as GS-XXX-XX. The first set of digits after "GS" is the federal occupation code; the second set is the grade (i.e., pay) range. If more than one grade is indicated, the position may be filled at the lowest, highest or any appropriate interim grade. Most of the jobs in FCO fall under the General General Schedule (GS) pay system, however, you'll see jobs that are "EQ" (equivalent) in pay. If you've never worked for the federal government or have not earned Status you can only apply for those jobs with the code (NS), which means Non-Status. The "(S)tatus" category includes current federal competitive service employees, reinstatement eligibles, excepted service employees covered by an interchange agreement, veterans preference eligibles, vets with 3/more years service or a 30% service-connected disability and other groups such as the disabled, certain Peace Corps/VISTA volunteers, Foreign Service and former overseas employees and their family members.

Once you've found the job(s) that you desire, you MUST review the vacancy package (RVP)* and follow the instructions to apply. Some vacanices request mailed forms or resumes while others require on-line applications. Read carefully … failure to submit required forms or KSA statements, and applications submitted in the wrong format may result in your losing consideration for the position! Pay special attention to the "closing date" listed. In most cases your application must either be postmarked or received by that date! If the closing date is listed as "OPEN," the job may close at any time and without notice, so hurry and apply!

*Review Vacancy Package (RVP)

To obtain a vacancy package through your internet account: Point your browser to the specific vacancy announcement by typing our URL followed by the job listing's weblink code located in the last column of the job listings. For example, if the weblink code is 11359, you would type: http://www.fedjobs.com/weblink/11359
